

BP-100

Classic single channel belt pack featuring sound and light alarm. A rugged all-steel case allows long term use in professional applications. Belt clip is made of spring steel. At its rear side, the BP100 has a 4 pin xlr connector for dynamic headsets, plus a male and female 3 pin xlr connector for the intercom line in and out. The connectors are identical with all other axxent belt packs.

Volume control for the headset, a recessed side tone control for monitoring its own microphone and a CALL push button for the light alarm signal at other components are standard features. Continuously pushing the CALL button keeps the light alarm signal flashing. A three-position switch allows speaking continuously (ON) or momentarily (PTT) - the third position is OFF. The BP100 belt pack has not only a flashing light alarm, but a sound alarm as well. A buzzer may be activated or switched off.

BP-100 rear side

BP-101

Mechanically, the BP101 is identical to the BP100. An addition to the BP100 is a switchable short or long time alarm signal. While the short time alarm is continuous, the longer time alarm is flashing. Another additional feature is a 3.5 mm jack for connecting a vibration alarm module VP100, available as an option. When the VP100 is connected, the buzzer alarm is being switched off.

BP-101

BP-100V

The same mechanical case as BP100/101. Here only a light alarm available, plus a 3.5 mm connection for the vibration alarm VP100. With the BP100V, the VP100 is included in the delivery package. Please note that the BP100V has no sound alarm.

BP-100V

VP-100

VP-100 Vibration Alarm Module

The VP100 is available as an option to the BP101 belt pack and is included with the BP100V belt pack. It is a small (5x4x2 cm) rectangular ABS case and is being connected to the belt packs via an 80 cm cable with a 3.5 mm mini phone plug.

	sound alarm	light alarm	vibration alarm		dimensions (l x w x h)	weight
BP-100	yes	yes	no		122 x 86 x 40 mm	320g
BP-101	yes	yes*	yes	VP 100 optional	122 x 86 x 40 mm	320g
BP-100V	no	yes	yes	VP 100 included	122 x 86 x 40 mm	320g
